CLOSEOUT MEMORANDUM

Case Number: A12030022

Page 1 of 1

Through our proactive review of plagiarism, we discovered a significant amount of copied text in an NSF proposal¹ and opened this case. A more detailed review found that the author of the source text (the source author) was a collaborator on the proposal.² Given the collaboration of the source author with the PI on this project, and the fact that no other copied text was discovered within the proposal, this case is closed.
