On 05APR01(THR), the National Science Foundation (NSF) Office of Inspector General (OIG) received a complaint from [REDACTED] alleging that [REDACTED] had accepted grant funds from the National Institute of Health (NIH) for research previously funded by NSF grant #: [REDACTED].

On [REDACTED], [REDACTED] was awarded a three-year NSF grant in the amount of \$200,000 to accomplish two specific research aims in the field of [REDACTED]. In [REDACTED] [REDACTED] applied for, and received, a second grant from NIH [REDACTED]. The NIH grant was awarded to accomplish three specific research aims, one [REDACTED]

[REDACTED] overlapped with the second NSF research aim funded by the previously awarded NSF grant.

Documents received from NIH disclosed that [REDACTED] NIH grant application did not disclose the fact that she was already receiving funding from NSF for the overlapping research aim. As a result, NSF terminated the award in [REDACTED] and the unexpended funds in the amount of \$77,962 have been recovered. The facts disclosed in this investigation have been referred to [REDACTED] NIH. With no further investigative leads remaining it is recommended that this case be closed.
