## CLOSEOUT MEMORANDUM

Case Number: I02020006

Page 1 of 1

OIG was contacted by a graduate student in January of 2002. At that time the student did not identify himself and explained that he had concerns that his graduate advisor was improperly using NSF, HHF and ADA (American Diabetes Association) grant funds. He stated that his advisor may retaliate against him by refusing to let him finish his degree. We advised the student that he could either provide the information at that time or wait until he graduated in May and provide the information at that time. The student elected to wait and provide the information after he completed his degree.

Since that time, OIG has been in contact with the student and learned that he will not earn his degree until August. We have decided, that at this time, this matter should be closed until the student is ready to provide the necessary information to pursue the matter formally.

Accordingly, this case is closed.
