CLOSEOUT MEMORANDUM

Case Number: I11030010

Page 1 of 1

An agency¹ reported that an employee² of a company³ was under investigation for making false statements in connection with federal awards. The agency requested we review the awards made by the agency⁴ and NSF⁵ to the company, and the underlying proposals, to determine whether the employee sought duplicate funding from multiple agencies for essentially the same research, while certifying to each agency that the proposed research was original.

An OIG review found no evidence the company submitted duplicate research proposals to the agency and NSF, and no evidence of false statements about the research. Accordingly, this investigation is closed.
