CLOSEOUT MEMORANDUM

Case Number: I-11-10-0041

Page 1 of 1

This investigation was based on information received from another federal agency's OIG¹ that they were investigating a university² that had indications of systemic issues in the financial administration of its federal awards. The purpose of our investigation was to determine whether the possible systemic issues affected the financial administration of NSF awards.

Our investigation, which included a financial review of thirty NSF awards, did not find evidence of systemic issues in the administration of NSF awards. However, the investigation did reveal two awards³ for which the university did not administer participant support funds consistent with NSF requirements. The university subsequently returned \$60,404 to NSF.

Accordingly, this case is closed with no further action taken.
