

MEMORANDUM

DATE: December 5, 1996

FROM: [REDACTED], SAC, Investigation Section

SUBJECT: Case Closeout

TO: Case No. I95100042

On October 10, 1995, we received allegations that an unknown NSF employee had used the NSF mailroom to mail chain letters and religious mailings. Initial investigation failed to identify any suspects. Upon our advise, on October 19, 1995, DAS sent the attached E-mail to caution NSF staff that use of the NSF mail delivery system is to be confined to official business.

Since the E-mail notice, we have not received any additional allegations of unauthorized use of the NSF mail. This case is hereby closed.
