Subject: Proactive Review of [REDACTED] I97030014

During a review of SBIR abstracts, we determined that two abstracts for grants to the [REDACTED] were similar in content. The two grants were NSF [REDACTED] " [REDACTED] " and U.S. Army Grant [REDACTED], " [REDACTED] " [REDACTED] After comparing the final reports for both grants, however, it appeared that there were enough differences in the research so as not to be duplicative. Based on this determination, this case is closed.
