CLOSEOUT MEMORANDUM

Case Number: I-18-0109-O

Page 1 of 1

We received an anonymous allegation that a university was not providing Responsible Conduct of Research (RCR) training to its NSF-funded students. In response to our inquiry, the university provided a copy of its RCR Training Plan, the number of students trained, and a copy of materials used for RCR training. We determined the university's RCR training approach is adequate.

This case is closed with no further action taken.
